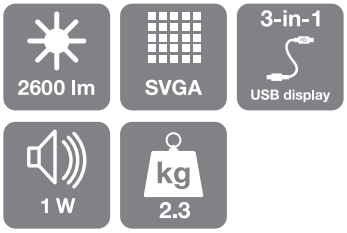
Epson **EB-S01**

DATASHEET



Perfect for first-time users, this EB-S01 entry-level projector is affordable, easy to use and ideal for viewing films, images and presentations in any home or office environment, without the need to learn new technology.

There's no need to dim the light with this SVGA projector thanks to a high White and Colour Light Output of 2,600 lumens. 3LCD technology as well as 3 000:1 contrast ratio produce natural images and sharp picture quality.

Designed specifically for use with computers, the EB-S01 is easy for office users to set up, and needs only one cable for visuals, audio and page up/down control. This is thanks to Epson's convenient 3-in-1 USB display feature, which removes the need for users to struggle with connecting multiple cables between the projector and their computers. Aligning the picture is made simple with vertical keystone correction.

When installed, the direct power on/off feature enables the projector to be turned on directly via the wall switch. If it is being used as a portable projector, the instant-off function means no cool-down time is required, allowing you to pack up and go without delay.

The EB-S01 is straightforward to set up, allowing you to get started quickly and hassle-free. A long lamp life of up to 5,000 hours helps cut maintenance time and keep running costs low.

KEY FEATURES

- Bright and sharp picture quality thanks to 2,600 lumens and 3 000:1 contrast ratio
- 3-in-1 USB Display: one USB cable is all that's needed for picture, sound and page up/down control
- Vertical keystone correction
- Long lamp life of up to 5,000 hours

One USB cable is all that's needed for picture, sound and page up/down control.
